

# Charge Up BOF Scrap Consumption Efficiency.

[berrymetal.com](http://berrymetal.com)

## WE PROVIDE FURNACE SOLUTIONS.

Increase scrap melting efficiency and heat times with Berry Metal Post Combustion Lance technology.

Get greater flexibility in scrap-to-hot metal ratios and faster heat times from the increased heat generation created by “post-combusting” CO to CO<sub>2</sub>.

Berry PC lances also reduce skulling and improve safety by eliminating manual deskulling practices.

We don't just say it, we do it.
