

George Boy named President of Berry Metal Company.

Berry Metal has promoted George Boy to President of the company.

Over the past four years Mr. Boy has been instrumental in helping Berry provide customers with innovative technical solutions and enhanced services.

“I am honored and excited to help lead Berry Metal forward and to continue to deliver the advanced technology our customers need to more effectively compete in today’s steel industry,” stated Mr. Boy.

George Boy, President

Boy joined Berry Metal in July of 2017 to lead the Engineering Services group, and direct the day to day activities of the Engineering Department.

Boy previously worked as General Manager for SMS Technical Services, LLC formerly SMS Meer. In his 10 years with SMS, Boy worked in various roles including Sales Manager – Tube and Copper Modernizations; Manager – Technical Projects; General Manager – Modernizations; and lastly General Manager – Engineering and Modernizations. Prior to his tenure at SMS, George worked for First Energy Nuclear Operating Co.

About Berry Metal Company: BMC is more than a technology supplier... Since 1951, BMC has provided proven dependable manufacturing with continuous product innovation and improvement. We are an engineering company with unparalleled manufacturing capabilities. We provide dependable and ground-breaking furnace solutions for steelmakers. And we create long-term relationships by supporting those solutions through a “boots on-the-ground” approach because we are invested in our clients and their continued success.
